### Cricket score management system (2021 - 2022)

- <https://github.com/Avneesh-kumar-1/cricket-score-management-system>
- It is based on c programming language.
- It uses file management to store data like as player name , player's team name, run etc & proving a managed output for the team.

### Whether forecast App (2022 - 2023)

- <https://github.com/Avneesh-kumar-1/WHETHE-FORECAST-APP>
- It is a group project we are two members in the group.
- Whether forecast app project is a weather condition tracker that uses the Open Weather API to fetch current weather data for a given location . we use **HTML, CSS, JavaScript** technologies in it.
- **Key Role:-** In this project I work as API Integration specialist.
- Writing code to make API requests and handle responses (GET requests to fetch weather data).
- Implementing error handling for API responses.
- Testing API requests to ensure they work as expected.

### Netflix Clone App (2023 - 2024)

- It is a group project we are four members in the group.
- Netflix clone project provides users with a wide range of options to choose from, including movies, TV shows, documentaries, and other video content. We use MERN (MongoDB, Express.js, React, Node.js) technology in it.
- **Key Role:-** In this project I worked as a frontend developer(React).
- I develop the user interface and user experience of the app using React.js.
